How to Insert an Image

1 Make a copy or download this template to use on your own device

2 Above, we've provided a video that shows how to add and edit an image in Google slides.

3 Select either the Facebook post template (slide 3) or the Instagram post template (Slide 4) and complete all required components for project submission.

4 Take a screenshot of your completed template and submit it on Coursera. You can find the link to submit here
